

PLATEAUX  
POUR

# Quenta

JEU DE RÔLE D'AVENTURES  
DANS L'UNIVERS DE TOLKIEN

Les plateaux Quenta ne sont pas indispensables pour jouer au jeu de rôle Quenta. Ces plateaux modulables offrent toutefois un certain confort pour visualiser les scènes d'action qui ne manqueront pas de survenir au cours d'une aventure. Ces plateaux sont conçus pour des figurines 25mm comme celle de la gamme Mithril de Prince August, spécialement créées pour l'univers de Tolkien

## Comment construire un plateau de jeu pour Quenta ?

<http://quenta.jdr.free.fr/plateaux.php>

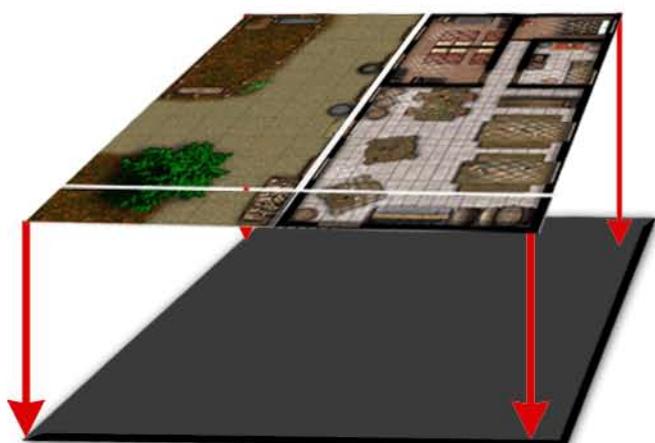

1

Imprimer les planches  
en recto simple  
couleur qualité laser

2

Procurez-vous des dalles adhésives  
de 30,5 cm x 30,5 cm  
(moins de 5 euros les 10)

3

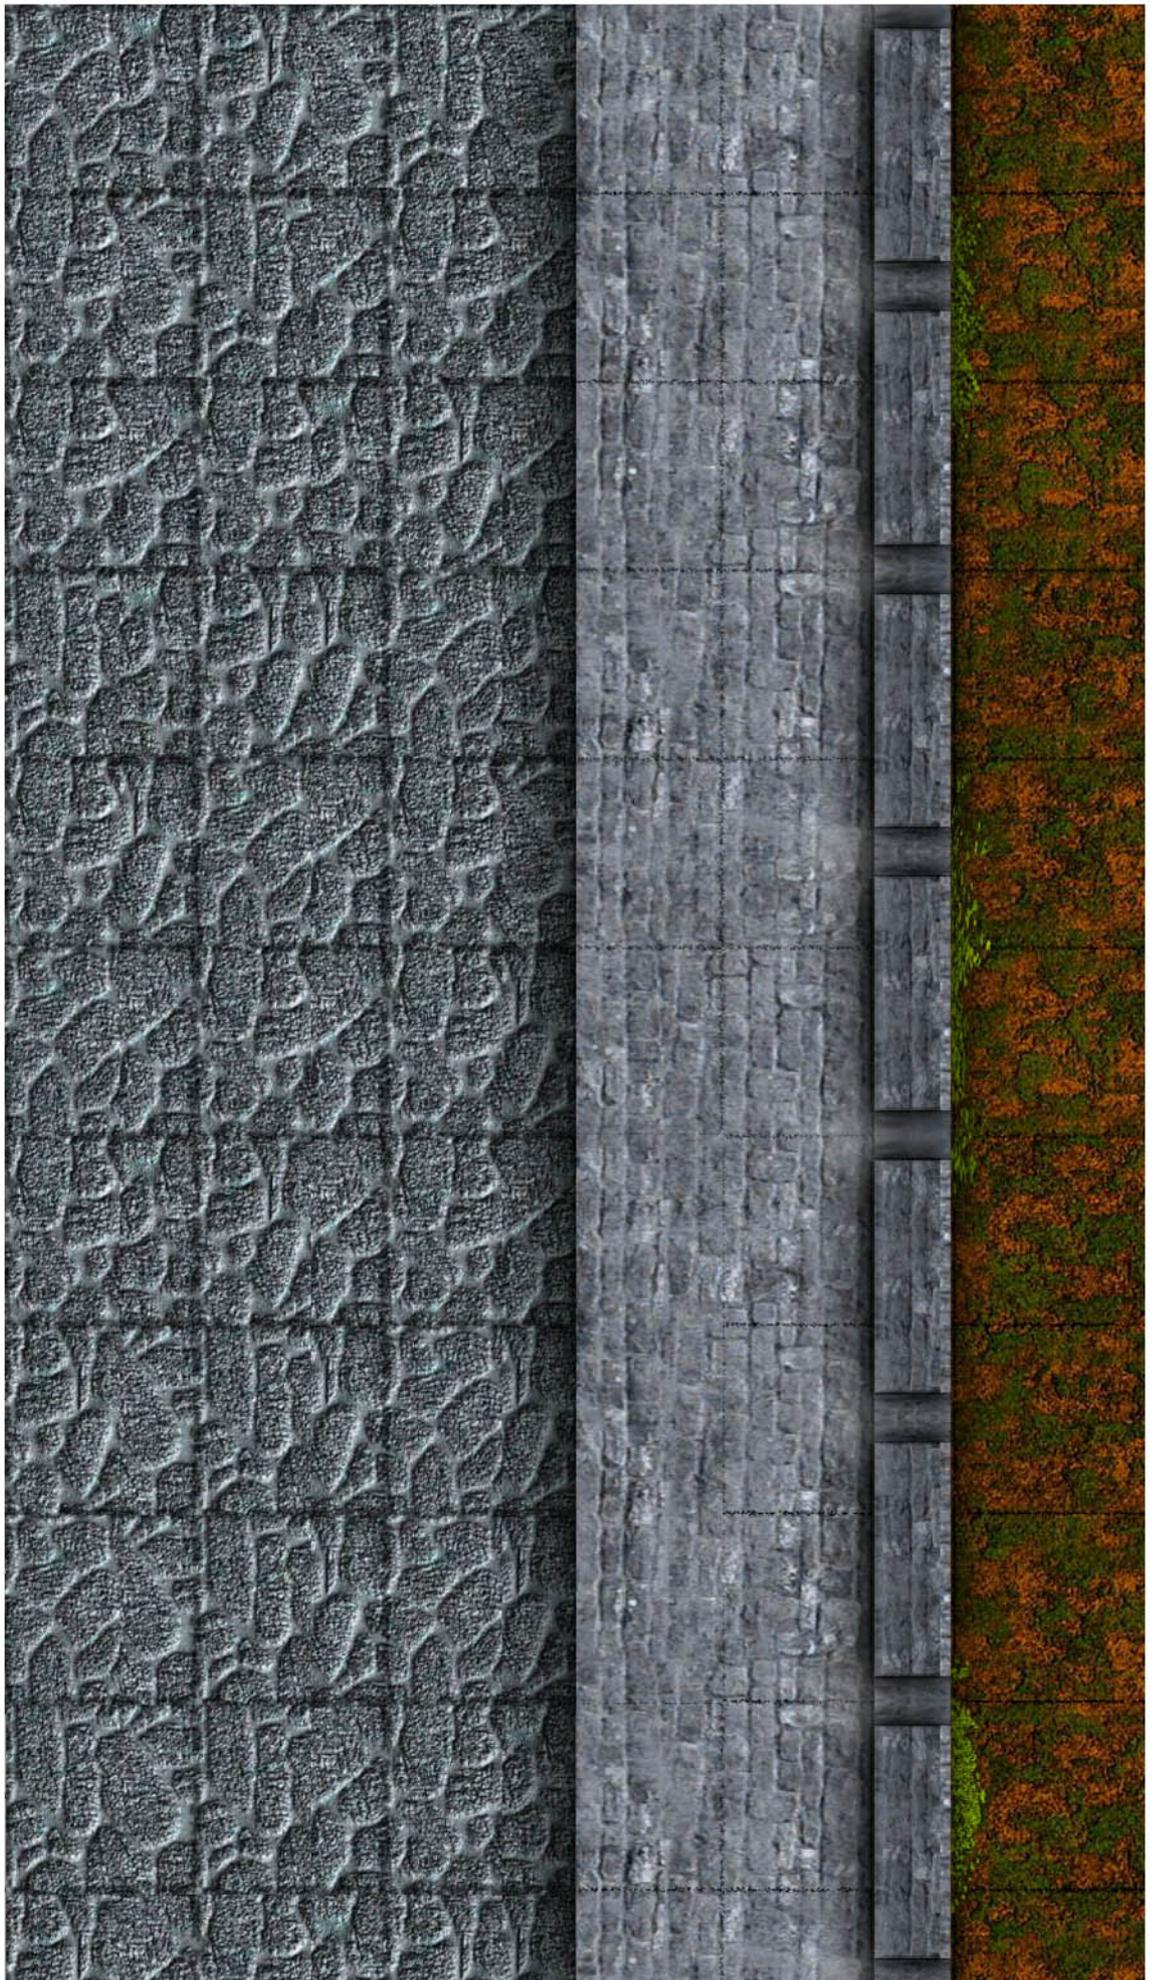

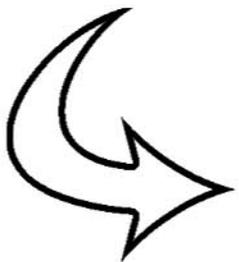

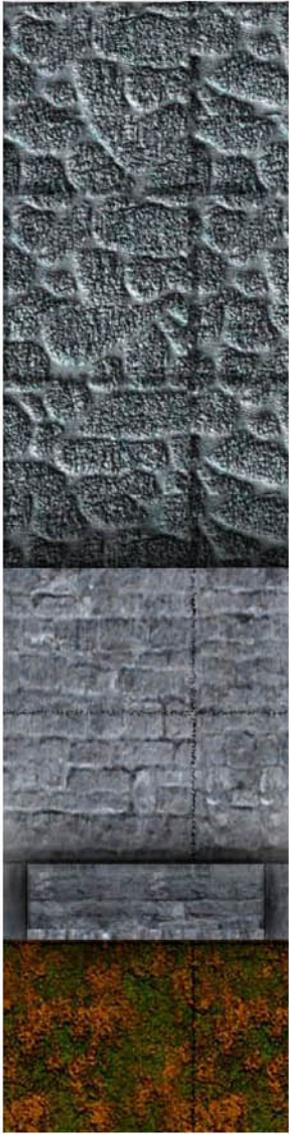

Découpez les planches  
et assemblez-les sur la partie  
adhésive de la dalle en faisant  
joindre parfaitement les bords

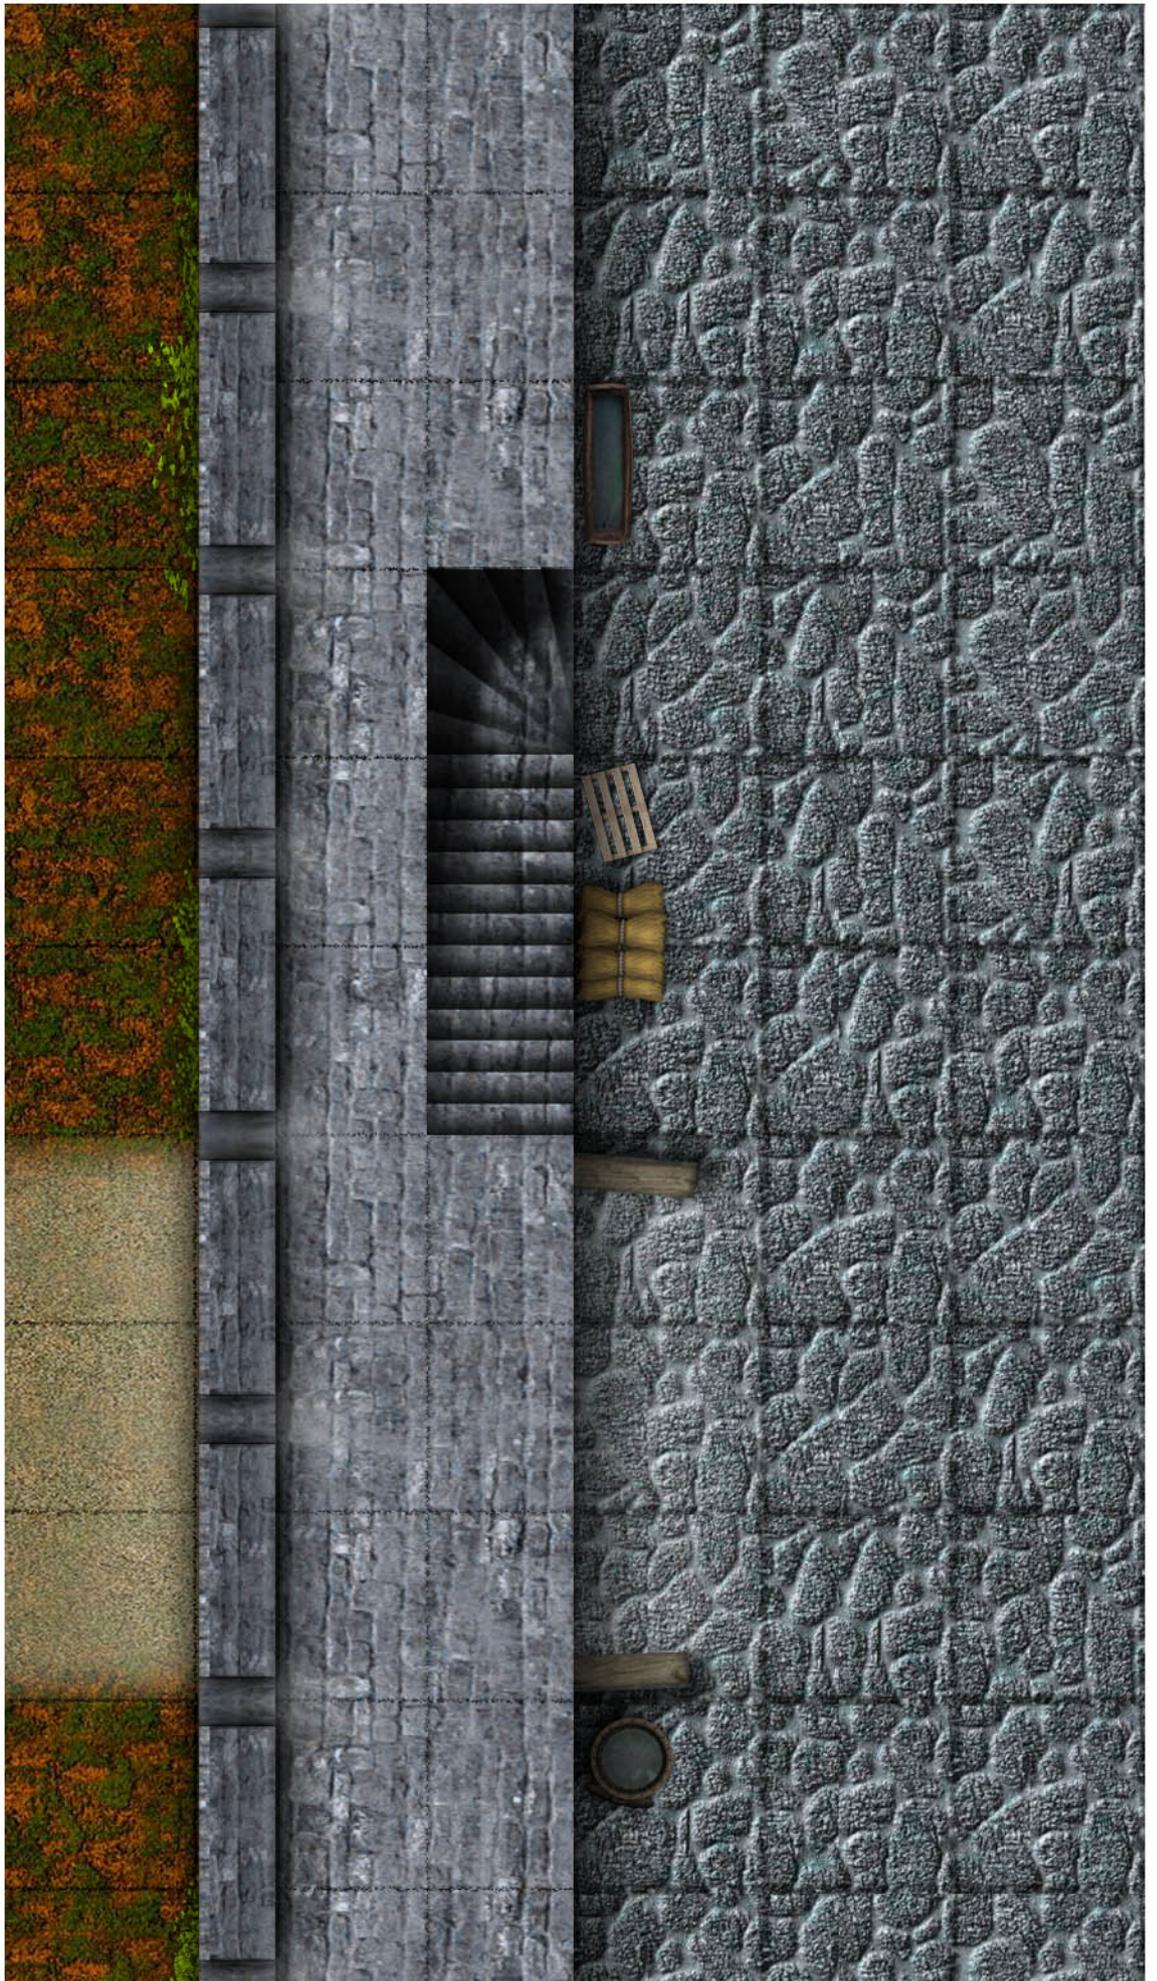

4

Découpez au cutter  
ou avec une bonne paire de ciseaux  
les parties de dalle  
qui dépassent du plateau imprimé

Pour assembler la Salle du Trône, coller sur une même dalle de 30x30cm l'entrée (avec les escaliers) et les deux parties avec le trône (et les sièges rouges). Découper ensuite la dalle en deux comme indiqué par le trait rouge du schéma ci-contre. Il sera ainsi possible d'intégrer 1 ou plusieurs sections de travées intermédiaires entre l'entrée et le trône.
